JOHN FITZGERALD KENNEDY

35th President of the United States

(1917 - 1963)

DEDICATION

TO

PROGRESS

Human progress has always been the history of individual heroism. The twentieth century has produced many heroes, but few of the stature of John Fitzgerald Kennedy. From a background of wealth and the upper caste, this man pursued a dedication to the development of a free and equal society.

He never completely reached his goal—the New Frontier; he never fully manifested his greatness. He did, however, succeed in showing us the path which we must take to reach this new frontier, the road on which we must manifest our greatness.

We are now entering upon this road which he once traveled, and while there, let us erect a monument to this man: let us dedicate this book to our 35th President:

JOHN FITZGERALD KENNEDY

To the Class of 1964

You have completed another goal in your lives which was attempted four years ago. This span of years, although it seemed long in the beginning, was very short indeed. It is filled with memories of crucial events in the history of our country. And yet, such events are not over — there will be more to come.

In the course of your life, as a graduate of Saint Joseph High School, you will be called upon to manifest the courage and leadership which are part of your Christian education. The faculty knows that you will not fail to do your share of carrying on the traditions of your alma mater.

Be constantly aware of your heritage as a Christian and of your devotion to Our Blessed Mother.

Very sincerely yours in J.M.J.,

Brother Robert Joseph Nunes, S.M.

"This nation was not founded solely on the principle of citizen rights. Equally important—though too often not discussed—is the citizen's responsibility. For our privileges can be no greater than our obligations. The protection of our rights can endure no longer than the performance of our responsibilities. Each can be neglected only at the peril of the other. . . .

"All Americans must be responsible citizens—but some must be more responsible than others . . . Increased responsibility goes with increased ability—for of those to whom much is given, much is required. . . .

"Only an educated and informed people will be a free people . . . the ignorance of one voter in a democracy impairs the security of all."

This newly formed branch of the student government has developed from the planning of student body officers, past and present. Initiating discipline by the students themselves rather than by the faculty, this organization has quickly become an integral part of life at the school. Although some opposition has arisen, there is hope that the men of St. Joe's will soon realize the value of this worthwhile effort.

SODALITY

FRONT, Left to Right: Jim Lee, Bob Marini, Henry Salvo, Mike Canizzaro. REAR: Bob Flocchini, Garth O'Maley, Simon Gazdick, Larry Bisauta.

The Sodality at Saint Joseph's has carried on very successfully this year. As an organization, the purpose is to train the individual to work, not through this activity, but through many others, providing spiritual leadership and devotion to Our Lady as an example to others. Activities this year were centered around the Marianist Sodality Convention held at Conoga Park. Among those representing St. Joseph's were Hayward Coleman, Bob Flocchini and Matt Guichard.

When Jim speaks we all listen! This is the Alameda County trophy winner in the American Legion speech competition.

This year the Speech Club, under the able direction of Mr. Killian, and helped along by the speaking genius of senior, James Lee, has brought to the attention of the public the the quality of the men of St. Joseph's. The capabilities of the Speech and Debate teams is evident in the large number of trophies which they have added to our case. The staff, in behalf of the students, congratulates these men for a job well done.

FIRST ROW: Garth Donoviel, Bob Anderson. SECOND ROW: Dennis Paynter, Larry Picetti, Jack Russell. THIRD ROW: Ron Lacosta, Lester Roudabush, Don Otto.

The yearbook staff wishes to thank you for your support of Powerdive, and hopes that the result of their long hours of work has been well received by the student body.

Few people realize the effort which goes into the formation of such a project, the many different facets of its production, or the satisfaction of a job well done.

"To the staff of Powerdive we give our thanks for a job well done!"

The Juniors have attempted to re-establish a student body newspaper under the name of the *Flight Log*. Based on the traditions of the *Contact* and aided by Mr. McBride and Brother Andrews, the staff has published a bulletin which touches on all activities.

The *Log's* essential purpose is to keep the student abreast of all extra-curricular activities, thereby fulfilling the principles of Saint Joseph's: *"to educate the man intellectually, spiritually and socially".*

Another new activity this year is the Alpine Club. It seems to be an outgrowth of the 50 mile hike fad, which our late President started and in which some SJHS students participated last year. This new club under Bro. Leary, has gone on such outings as a hike to Devil's Punch Bowl in the Oakland Hills, and many other well known areas. We sincerely hope that the Club becomes a permanent organization, promoting and sponsoring enjoyable excursions for the school.

Among the yearly activities of the Mother's and Father's Clubs is the Christmas Program. Staged in the most festive season of the year, the program tries to heighten the enjoy-

It was the people of this country who had become a nation of spectators, and it was we, the citizens, who allowed the United States to fall in the field of athletics. However, it was our late president who reminded us that we are a great people and should endeavor to develop our bodies as well as our minds. For this reason Mr. Kennedy organized a physical fitness program (in which the students of St. Joseph's participated) and fifty mile hikes, one of which was sponsored by the administration. Furthermore the President himself indulged in such sports as golf, swimming, football, and hiking. Regretfully, he is not here today to lead us on to further greatness, instead we must venture forth on our own.

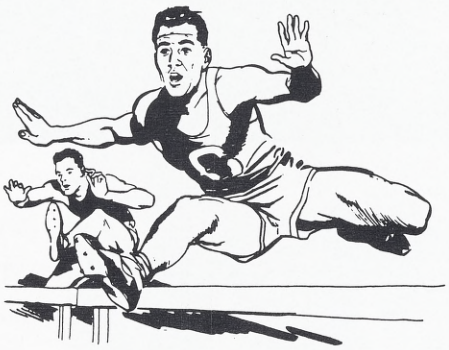
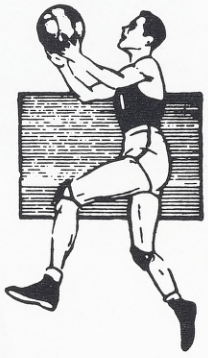
The Pilot's Cross Country team placed third in the annual Catholic Athletic League meet held at Stanford. Senior Bill Fairwell surprised all by finishing first.



St. Joe's broke its three year record-setting run of losses by beating our transbay rival, Riordan of S. F., in the last basketball game of the season .



The Charles Weiss Memorial Track Field was constructed in mid-winter for use during the track season. This is a monument of the great enthusiasm felt for our long time Athletic Director.

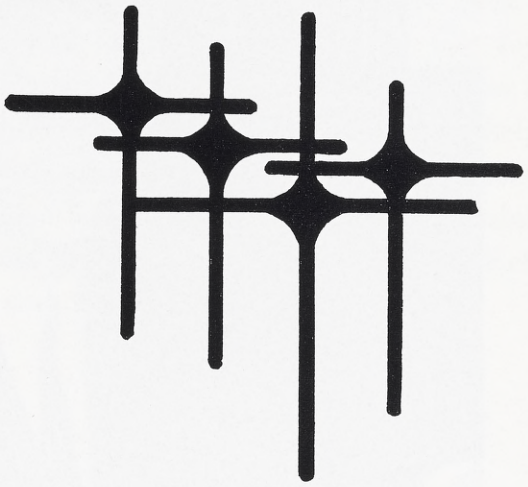
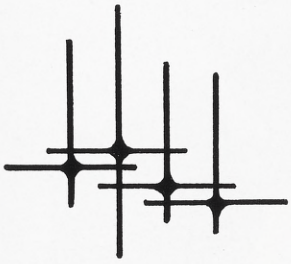
EX LIBRIS
PLUTARCH'S LIVES
DRYDEN



Through the course of your years at St. Joseph many fond memories were acquired. On the following pages we have endeavored to recall the most chrished of these events.

Do you remember the dances, the musicals, the faculty favorites, the great basketball games, the prominent outside personalities, and most especially our late President to whom this yearbook is dedicated. Perhaps, in reviewing these pages, you will be reminded of your own personal experiences.



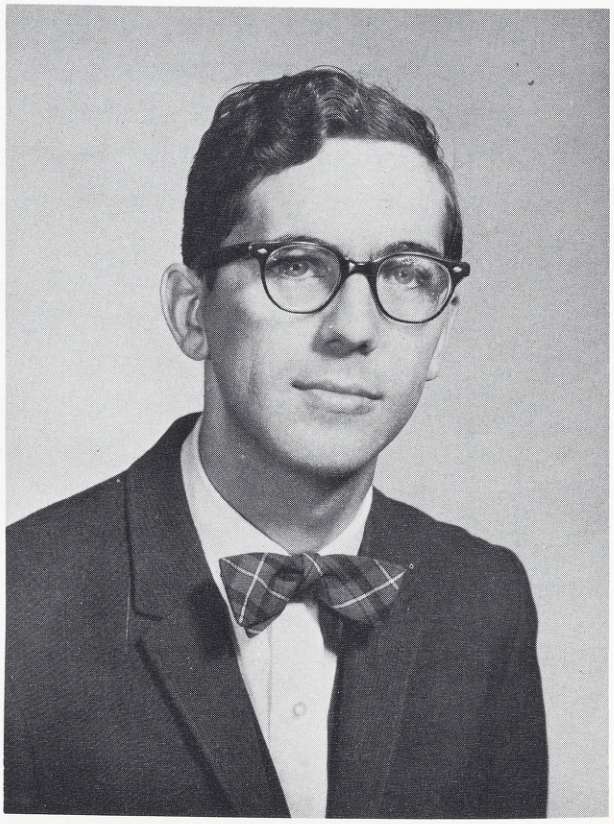
BROTHER ELMER DUNSKY
S.M.

During the first two years we walked these hallowed halls, our good friend and principal, Bro. Dunsky, walked along side of us.

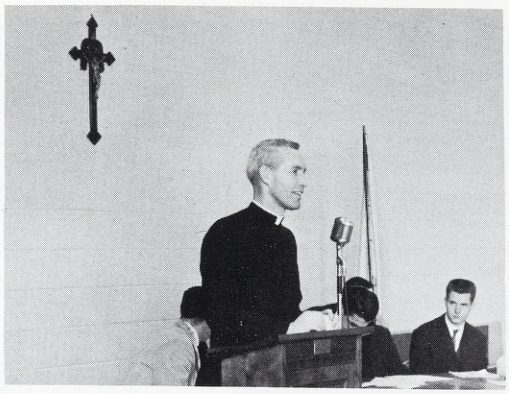
Even today, we might chance a glance at his shadow, for he visits annually while attending to the finances of the Province of the Pacific of the Society of Mary.

While Bro. Dunsky was the principal of St. Joseph's, many memorable events occurred, such as the last annual variety show, and one of our favorite faculty members, Mr. John Donovan.

In recalling Bro. Dunsky, we are reminded of another former instructor: Mr. John Donovan. Always a favorite, he taught Biology and Fine Arts to the graduates, and produced the musicals for many years. Mr. Donovan left St. Joe's in 1962 because of a prolonged illness.



MR. JOHN DONOVAN

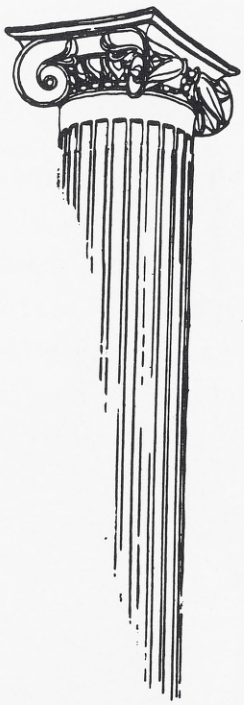


In our final farewell to St. Joseph's, we can recall the outstanding counselors that we associated with. Among one of the finest was Father McEnhill, who officiated in our Freshman and Sophomore years. He helped many a student along the road of teenage life and today he is chaplain at Chaminade College in Hawaii where he teaches Religion and Surfing. (?)

Monsignor Alvin P. Wagner, pastor of Saint Joseph's Church, is the man in the spotlight, the man that should be thanked a million times over. Due to the sacrificing of great time and energy, Monsignor Wagner has given the church a beautiful new altar and in September, the underclassmen will enjoy the use of a new facility, that of the long-awaited gymnasium.

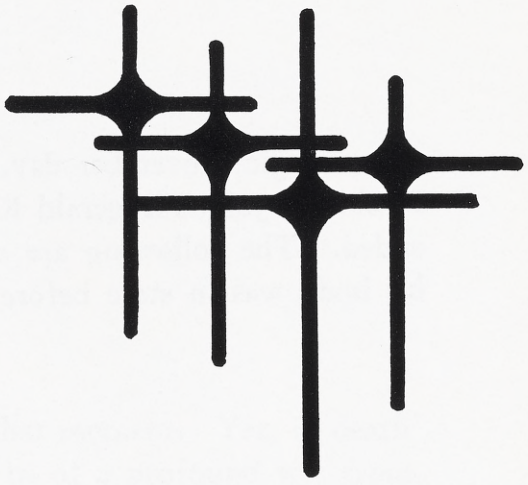
The Most Reverend Floyd L. Begin, the first Bishop of Oakland, will be unable to attend the graduation ceremonies of St. Joseph and Notre Dame High Schools.

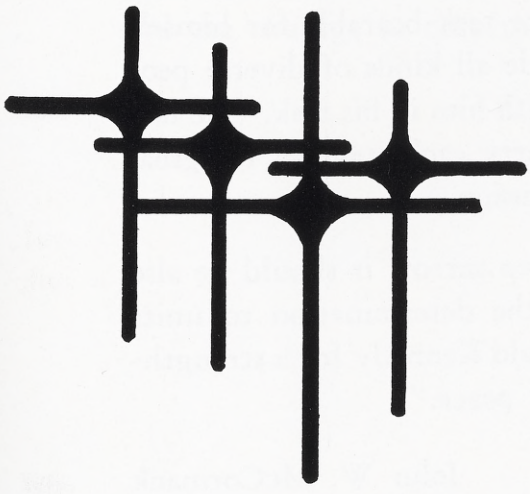
As we all look forward to this momentous occasion, so too can we expect many new changes in this young diocese, which Bishop Begin has pioneered. Although we are still at too early a stage for measuring success, we can truthfully say the diocese, and all of its spiritual organs and functions, is ever changing, and always for the better.



As 1962 coldly and quickly changed to a new year, 1963, few people expected that the world would lose two of its most respected and well loved leaders. Just as America and people of other nations mourned the passing of J. F. Kennedy, so too did Catholics, and Christians the world over, sadly pay their last respects to Pope John XXIII.

This humble man, although he wore the papal tiara for only a few years, did much to reform the oldest Christian religion, Catholicism.





The successor to Pope John was elected late in June, 1963. A friend of the former pope, he is expected to continue liberal reformations of his predecessor and has already declared that the Ecumenical Council convened by John will, with great expectations, be continued.

It is our hope that Pope Paul VI, the former Cardinal Montini, will have the untiring support of all Christianity.

On a tragic November day, in 1963, the life of our esteemed President, John Fitzgerald Kennedy, was brutally and abruptly ended. The following are excerpts from speeches delivered as his body was in state before a mourning nation.

". . . President John Fitzgerald Kennedy possessed all the qualities of greatness. He had deep faith, complete confidence, human sympathy and broad vision which recognize true values of freedom, equality and the brotherhood which have always been the marks of the American political dreams.

"He had the bravery and a sense of personal duty which made him willing to face up to the great task of being President in these trying times. He had the warmth and the sense of humanity which made the burden of the task bearable for himself and for his associates, and which made all kinds of diverse peoples and races eager to be associated with him in his task. He had the tenacity and determination to carry each stage of his great work through to its successful conclusion.

" . . . While this is an occasion of deep sorrow it should be also one of dedication. We must have the determination to unite and carry on the spirit of John Fitzgerald Kennedy for a strengthened America and a future world of peace."

John W. McCormack
Speaker of the House

" . . . A piece of each of us died at that moment. Yet, in death he gave of himself to us. He gave us of a profound wit from which laughter came. He gave us of a profound mind from which leadership emerged. He gave us of a kindness and a strength fused into a human courage to seek peace without fear.

"He gave us of his love that we, too, in turn, might give. He gave that we might give of ourselves, that we might give to one another until there would be no room, no room at all, for the bigotry, the hatred, the predjudice and the arrogance which converged in that moment of horror to strike him down.

"In leaving us — these gifts, John Fitzgerald Kennedy, President of the United States, leaves with us. Will we take them, Mr. President? Will we have, now, the sense and the responsibility and the courage to take them?"

Sen. Michael Mansfield

" . . . We dare not forget today that we are the heirs of that first revolution. Let the word go forth from this time and place, to friend and foe alike, that the torch has been passed to a new generation of Americans — born in this century, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage — and unwilling to witness or permit the slow undoing of those human rights to which this nation has always been committed, and to which we are committed today at home and around the world.

" . . . To those people in the huts and villages of half the globe struggling to break the bonds of mass misery, we pledge our best efforts to help them help, themselves, for whatever period is required — not because the Communists may be doing it, not because we seek their votes, but because it is right. If a free society cannot help the many who are poor, it cannot save the few who are rich.

". . . And if a beachhead of cooperation may push back the jungle of suspicion let both sides join in creating a new endeavor, not a new balance of power, but a new world of law, where the strong are just and the weak secure and the peace preserved.

" . . . All this will not be finished in the first one hundred days. Nor will it be finished in the first one thousand days, nor in the life of this administration, nor even perhaps in our lifetime on this planet. But let us begin.

" . . . In the long history of the world, only a few generations have been granted the role of defending freedom in its hour of maximum danger . . . The energy, the faith, the devotion which we bring to this endeavor will light our country and all who serve it — and the glow from that fire can truly light the world.
" . . . And so, my fellow Americans: ask not what your country can do for you — ask what you can do for your country."

EDUCATION

"Our progress as a nation can be no swifter than our progress in education. Our requirements for world leadership, our hopes for economic growth, and the demands of citizenship itself in an era such as this all require the maximum development of every young American's capacity.

The human mind is our fundamental resource. A balanced Federal program must go well beyond incentives for investment in plant and equipment. It must include equally determined measures to invest in human beings — both their basic education and training and in their more advanced preparation for professional work.

". . . No task before our nation is more important than expanding and improving the educational opportunities of all our people . . . for education is both the foundation and the unifying force of our democratic way of life — it is the mainspring of our economic and social progress — it is the highest expression of achievement in our society, ennobling and enriching human life. In short, it is at the same time the most profitable investment society can make and the richest reward it can offer."

JOHN F. KENNEDY

FROM: JOHN FITZGERALD KENNEDY

SPECIAL DELIVERY FROM HEAVEN:

TO: THE KENNEDY FAMILY

Sorry I had to leave right away,
I look down and smile at you every day.
Little Patrick asks to say "Hi",
I love you, I'm happy, so please don't cry.

And Caroline I'd like to say,
How proud Daddy was of you that day
When you stood like a lady and watched me go by,
And doing as Mommy did, you tried not to cry.

Little John, now you're the big man,
So take care of Mommy the best you can.
You were just like a soldier — that salute was so brave,
Thanks for the flag that you placed on my grave.

And Jackie, there was no time for goodbyes,
But I'm sure you could read the "Farewell" in my eyes,
Watch over our children and love them for me,
I'll treasure your love through eternity.

So please carry on as you did before,
'Til all of us meet on Heaven's bright shore.
Remember I love you, remember I care,
I'll always be with you, though you don't see me there.

Love,
Jack

" . . . In serving his vision of the truth, the artist best serves the nation. And the nation which disdains the mission of art invites the fate of Robert Frost's hired man — 'the fate of having nothing to look backward to with pride and nothing to look forward to with hope.'

"I look forward to a great future for America — a future in which our country will match its military strength with our moral restraint, its wealth with our wisdom, its power with our purpose.

"I look forward to an America which will not be afraid of grace and beauty, which will protect the beauty of our natural environment, which will preserve the great old American houses and squares and parks of our national past, and which will build handsome and balanced cities for our future.

"And I look forward to an America which commands respect throughout the world not only for its strength but for its civilization as a whole . . . "
